PUBLIC FORUM

A member of the public was present to raise concern at a planning application. Members noted concerns raised.

The Chairman asked members if they wished to bring planning application HH/2015/2490 forward to discuss and this was agreed.

MINUTE 46/2015 - PLANNING MATTERS

List dated 21st August 2015

Proposed Development HH/2015/2490 Millbourne House, Washbrook Lane

Members discussed this application and consideration of concerns raised during Public forum.

RESOLVED: that the Parish Council object on the following grounds:

- a) it is considered there is no justification for any changes since the previous planning application was submitted in 2006 and the grounds of objection submitted by the Parish Council to the previous application in 2006 are still relevant in that the application site is an attractive area of Coventry's Ancient Arden landscape in the green belt. It can be viewed from rising ground on the public footpath network by runners, horseriders and cyclists, and is on the Coventry cycle route.
- b) The original barn conversions were permitted on the basis that the appearance of the barn and curtilage would be altered as little as possible in order to retain the original functional character and surrounding of the buildings as reflected in the City Council's guidance on 'Conversion of Redundant Farm Buildings'.
- c) The proposed extension would therefore cause harm to the green belt because it is inappropriate, would diminish openness and is visually detrimental by reason of the siting, whilst failing to contribute to the achievement of any objectives for the use of land in the green belt. It is also felt that the proposed development is over intensive and that extensions to these locally listed barns would dilute their original functional character and encourage similar applications, which will then be more difficult for policy to be applied.

RESOLVED: that consultation on the options for a combined authority be placed on the next Agenda for discussion.

Cllr Farrar updated members on discussions he had had with Godfrey Payton who would be talking to their trustees about trees in September.
